Air Conditioning & Heating

ENERGY-SAVING EFFICIENCY WITH GOODMAN

When properly matched and installed, your Goodman® brand DSXC16 Air Conditioner offers up to 16 SEER high-efficiency performance. "SEER" stands for Seasonal Energy Efficiency Ratio, a measure used by the U.S. Department of Energy to rate the efficiency of air conditioners. The higher the SEER, the greater the efficiency—and the lower the operating cost. In many applications, the efficiency of your Goodman brand DSXC16 Air Conditioner can be enhanced by using it in conjunction with a Goodman brand Gas Furnace that includes a variable-speed blower motor. Talk to your Goodman dealer about opportunities to optimize the efficiency of your new unit.

COMFORT. SAVINGS. PERFORMANCE.

ENJOY THE COMFORT OF A GOODMAN BRAND AIR CONDITIONER

Beat the summer heat with a Goodman brand DSXC16 R-410A Air Conditioner—a unit that provides you with high-efficiency, reliable performance and quiet operation. This air conditioner's worry-free operation and outstanding features add up to outstanding comfort and energy-saving value compared to lower SEER units.

EXPERIENCE QUIET COMFORT

You can be assured that your Goodman brand air conditioner will provide you with quiet cooling all year long. To minimize operating sounds, we've acoustically engineered our systems with enhancements that include a compressor sound-reduction cover made of high-density foam and a specially-designed wire discharge grille. Additionally, the two-speed operation of the condenser fan motor allows your outdoor fan to run more often at a lower speed.

COMMITMENT TO QUALITY ENGINEERING

Always in pursuit of the highest performance and efficiency, our engineers

are constantly evaluating the latest and most reliable technology and applying it to every Goodman brand air conditioner.

But best of all, your new air conditioner is compatible with the ComfortNet™ system of communicating products. With a large assortment of built-in features, your contractor can auto configure, monitor and review data from the system. This allows for optimum performance and accurate detection of any system-related issue.

R-410A REFRIGERANT

Compared to lower SEER, R-22 refrigerant units, your new Goodman brand DSXC16 air conditioning system will not only provide you with money-saving cooling performance for many years, but it also features R-410A refrigerant. This refrigerant does not contain chlorine.

Introduced in 1995, R-410A refrigerant has helped increase the durability and reliability of air conditioner compressors.

IMPRESSIVE FEATURES AND BENEFITS: GOODMAN® BRAND DSXC16 R-410A HIGH-EFFICIENCY AIR CONDITIONER

- High-efficiency cooling performance
- ComfortNet™ Communicating Systems compatible
- Chlorine-free R-410A refrigerant
- A Two-Stage UltraTech Copeland® Scroll Compressor
- Factory-installed, liquid line filter drier
