

# Trane's New **S-Series** Gas Furnaces

## **S9V2** 2 Stage Variable Speed

The new S9V2 furnace is more efficient in both heating and cooling, offers quiet operation, and maintains the DNA that Trane is known for: quality and reliability.

### Industry-changing cabinet design

The S-series furnace cabinet is designed to accommodate virtually any home, and is certified to be airtight to less than 1%.

### Efficient performance

The S9V2 is rated at **96%** gas efficiency (AFUE), and the Vortica™ II blower is one of the most efficient in the industry, providing energy savings in both winter AND summer.

### Comfortable, even heating

With stainless steel primary and secondary heat exchangers, and the ultra-efficient Vortica™ II variable speed blower, you can count on a consistent flow of warm, comfortable air with quiet operation.

Every Trane furnace is packed with high-quality components. Each helps ensure that time after time, your unit will provide total comfort your family can rely on.

## The S9V2 includes:

- » Re-designed cabinet platform to fit in tighter spaces.
- » Variable-speed blower motor.
- » Heavy gauge, two-tone powder-painted cabinet.
- » Increased dehumidification with Comfort-R™.
- » Insulated cabinet for quiet operation.
- » Stainless steel primary and secondary heat exchanger.
